Four in One: Four Projects. One Parish / June 10, 2018

Four in One is the theme of our upcoming capital campaign to address four urgent church maintenance projects:

1. Church Roof
2. Church Ceiling
3. Church Lighting
4. Bell Tower Cladding

The idea of “Four in One” stems from the concept that completion of these four individual projects will benefit, improve, and strengthen our one parish community. Further, the four projects are very much related. The leaking church roof has damaged the church ceiling. While working on the church ceiling, it makes sense to improve the church lighting. The water-related issues in the church tie to the need to prevent further water damage to the bell tower. Together these are four projects in one, unified parish effort.

The first of seven campaign receptions was held on Thursday, May 31st. The reception was hosted by Jon and Sarah Webster, led by Fr. Steve, Tom Bartell and Blaise Goudy, and attended by about 50 parishioners.

The remaining campaign receptions will occur this coming September and October, 2018. The purpose of the receptions are to gather as a parish family, pray for our parish community as we proceed, share detailed information about the four projects, and request financial and volunteer support for our campaign.

This early reception was also the initial launching point for three key campaign volunteer teams:

1. Publicity
2. Phone Calls
3. Hospitality

These teams will meet over the summer to work with our consultant, Kris Wallace, to prepare for the fall campaign. Every parish and school family will be invited to participate in the campaign and asked to attend one of the upcoming receptions. The May 31st event was only the beginning!
